

Akshay Kumar Das

Software Engineer | Full Stack & Mobile Engineer | Flutter • Node.js • AWS

iamakshaykumardas007@gmail.com | LinkedIn | GitHub | Portfolio | +91 9007998706

Professional Summary

Software Engineer with hands-on production experience building scalable full-stack and cross-platform mobile applications using React, Next.js, Node.js, Flutter, GraphQL, and AWS. Experienced in backend system design, cloud-native integrations, API development, and end-to-end feature ownership. Built real-time rule evaluation systems, health-data synchronization pipelines, and event-driven architectures powering production web and mobile platforms.

Experience

Software Development Engineer

Empwr by Wellness Connection (via Dasceq India Pvt. Ltd.), Kolkata

Aug 2024 – Present

Full-time | On-site

- Owned technical design and implementation of **BH Assessment**, a real-time **rule evaluation and questionnaire orchestration engine** that dynamically determined assessment flow using branching logic, runtime conditions, and score thresholds.
- Designed secure wearable health-data synchronization architecture integrating **Android Health Connect** and **Apple Health**, supporting background sync, event-driven ingestion, and on-demand reconciliation workflows.
- Built event-driven backend pipelines on **AWS (Lambda, S3, EventBridge, API Gateway)** to decouple services and improve scalability and maintainability.
- Contributed across **Flutter, React, Node.js, and GraphQL**, shipping production-ready features across backend APIs, web applications, and cross-platform mobile apps.
- Led migration from legacy **Keystone CMS** to **Payload CMS**, improving content workflows, retrieval efficiency, and internal platform usability.
- Integrated **Firestore Realtime Database** for live sync use cases including notifications, real-time updates, and system-state communication.
- Strengthened engineering quality through **Jest unit testing**, CI/CD improvements, technical documentation, L2/L3 support, and mentoring junior engineers.

Software Development Engineer Intern

Empwr by Wellness Connection, Kolkata

Apr 2024 – Jul 2024

Internship | On-site

- Built patient overview dashboards using **React + Chart.js** to visualize structured medical and personal health data effectively.
- Drove reusable UI component development, accelerating feature delivery and improving maintainability.
- Self-learned Flutter rapidly and transitioned into cross-platform mobile development, shipping production features within the first month.
- Integrated **React Query** caching strategies to reduce redundant API requests and improve frontend responsiveness.
- Developed and tested **GraphQL APIs**, improving frontend-backend communication and data-fetching efficiency.

Featured Projects

Creativenuances — Production E-Commerce Platform

Live Demo

Built and deployed a production client e-commerce platform with integrated CMS workflows, payment systems, and operational shipping pipelines.

Tech: Next.js, Tailwind CSS, MySQL, Strapi, Razorpay

SplitXL — Expense Tracker & Group Expense Splitter

Live Demo | GitHub

Built a PWA expense tracker with React 19.2, TypeScript, and IndexedDB, featuring group expense splitting, debt simplification algorithms, interactive analytics dashboards, and PDF report generation

Tech: React 19, IndexedDB, TypeScript, Vite, Zod, Shadcn, Tailwind CSS, Zustand

Quote Vault — AI-Assisted Quote Discovery App

GitHub

Cross-platform Flutter application built with clean architecture, offline support, authentication, and scalable Bloc state management.

Tech: Flutter, Bloc, Supabase, GetIt, GoRouter

Technical Skills

Languages: JavaScript, TypeScript, Dart, Python, Java, C
Frontend: React.js, Next.js, Tailwind CSS, React Query, Chart.js, HTML, CSS, Zustand, Redux
Backend: Node.js, Express.js, GraphQL API Development
Mobile: Flutter, Bloc Architecture
Cloud / DevOps: AWS, Docker, Jenkins, CI/CD
Databases: MongoDB, MySQL, Firebase RTDB, Supabase
Testing / Tools: Jest, Git, Bitbucket, GitHub, Cursor, GitHub Copilot, Zod

Education

Master of Computer Applications (MCA) University of Calcutta CGPA: 8.68	2022 – 2024
Bachelor of Science in Computer Science (Hons) University of Calcutta CGPA: 8.267	2019 – 2022
